

Produced in Denmark by

Animalia Equidae

For the sake of the horses

Primary features of Animalia Equidae are:

- High Level Disinfection.
- Eliminates 99.999% of all bacteria, viruses, fungi and spores.
- Does NOT contain chlorine or aldehyde compounds.
- Effective against i.a. Microsporum Canis + Gypse-um (Ringworm).
- Effective against a wide range of pathogens including mycobacteria, viruses, bacteria, fungi, yeasts including Feline Calicivirus.
- Non-corrosive - will not damage delicate coatings and surfaces.
- RTU - Ready To Use.
- Cost effective.
- DO NOT emit vapors.
- Tested according to EN14885 for disinfectant properties.

Effective against eg:

- Feline Coronavirus
- Pneumonia diseases
- Streptococcus Equi
- Equine Viral Arteritis EVA
- MRSA

Animalia Equidae

High Level Desinfecting

In General

Animalia Equidae is a patented thoroughly tested HLD (High Level Disinfectant). It contains NO hazardous aldehyde or chlorine generating components. Animalia Equidae is extremely effective as a HLD against bacterial spores, mycobacteria, bacteria and viruses. The product is designed to eliminate the risk of cross infections from spores, TB, viruses and bacteria. Animalia Equidae not only makes the microorganisms irritating, but has test-proven that they eliminate them. The product is safe to use on all surfaces, and is color and odorless.

Packaging

Ready to use

- 750 ml
- 1 L
- 5 L
- 10 L

Application

Mixing ratio : RTU (Ready To Use)

Removes:

Bacteria, viruses, fungi and spores as well as living conditions for pests. PetLine Animalia is a NON-corrosive product. (Also applies to plastics and soft metals such as copper and aluminum).

Application:

Approx. every 7 days.
Otherwise if needed.

Instructions for use: Apply Animalia Equidae directly to the area where you want to disinfect, then rinse the product / area (after 5-10 minutes) with water.

NOTE:

- Avoid eyes and ears.
- Do not allow the horse to ingest the product orally. (Avoid licking the product / fur during the working time)
- Remember to wash the product COMPLETELY so that there is no residue in the coat.
- Remember to give the product an effect time.

NB. If in doubt before use, BioGroup recommends consulting a veterinarian.

NOTE: In case of spillage, it can in rare cases deposit marks on untreated surfaces / floors, just like all other liquids that are not pure (lime-free) water H2O.

Durability: RTU (Ready To Use) approx. 3 years from production date (See date marking)

C-EN Tests

Bacteria

Acinetobacter calcoaceticus Acinetobacter baumannii
Bacillus stearothermophilus
Bacillus cereus
Campylobacter jejuni
Clostridium difficile
Clostridium perfringens
Enterobacter sakazakii
Enterococcus hirae
Enterococcus faecalis Vancomycin Resistant (VRE)
E-coli
(Escherichia coli)
Escherichia coli ESBL
Escherichia coli – O157 Strain
Klebsiella pneumonia
Legionær sygdom
Legionella pneumophila
Listeria monocytogenes
Methicillin resistant
Staphylococcus aureus
(MRSA)
Pseudomonas aeruginosa
Salmonella typhimurium
Serratia marsescens
Shigella sonnei
Stenotrophomonas maltophilia
Staphylococcus aeruginosa
Vibrio parahaemolyticus
Yersinia enterocolitica
Mycobacterium terrae
Mycobacterium tuberculosis Mycobacterium avium

Vira

Bird flu (H5N1)
Swine iflu (H3N2)
Vaccinia virus Adenovirus

Spores

Bacillus cereus Sporer
Bacillus subtilis sporer
Clostridium difficile
sporer Clostridium
perfringens sporer

Fungis

Microsporum canis
Microsporum gypseum
Dermatofytter
Trichophyton equinum
Tri-chophyton
mentography-tes
